

Please do NOT let the CBA challenge the Indiana "Do Not call" law. it works great. life is so much better for us here in Indiana with this law intact. I don't want a bunch of bank throughing there money around to overturn a law that is doing a great thing for the people. We have a right to our privacy, that's why we got on the no-call list. I don't think these bank should be able to supercede my right to my privacy. Listen to what the people want, not the the big companies!!!!
